When Baby was sick, we gave her Castoria. When she became a child, she cried for Castoria. When she became a woman, she clung to Castoria. When she had children, she gave them Castoria.

"The Hoosier Recruit."

BY C. MACK GERRICK.

Say, Bill, don't you wish you were back home, by the old fire-side? A "hairy" old maid to stand picket, Drenched with rain, and hungry beside, And we can't even make do with you see.

For the flash of a Lucifer match, Would bring us a shower of lead, From them "Rats," in that blackberry patch.

Yes—I heard from our folks—and I Of course you were "blasted" on me Bill—I got such a gusher—gilt edged— From—hold down your ear Bill—from "Till." "Till" says; that the old folks at home, Walked the floor—half the night—when they read Of our fight on the old Rapidan.

For fear I'd get plugged through with lead. Squally? Well, I'd rather die than be shot. But, say, don't you think a square fight, With them as stand up to the work— Is better than "blasted" at night? I don't like the wind through the trees, Nor the rain sifting down through the boughs And dark as night and cold.

To; Bill, I'd rather be "freed" than the cows. I'm not "sickered"—though I ain't seen as much Of the service, as you have, old boy. But "shootin'" ain't "dancin'" nor such— "Spelling-words" as we had down to Troy. He and Till wasn't here deep in mud Then, nor I wasn't tramping a beat, Two's, cider and popcorn and "sich" (Bill, that rate is turnin' to sheet.)

Am I "worthin'" that "Till" type? Well, old pard! are you when your head? Would she sling such a rooster as me— Take a day-at-home "gilded" in my seat? But, then, it's a long time for to wait, Three years—or during the war And, may-be, 'twas wrong, on my part, To expect her to wait any watch for— A peep—both legs off—a "shot."

The chances are good for all both, And if she does sling me, why Bill, I'll not blubber, nor swear, nor an oath, For a chap as has shouldered a gun, And peeked his "dead head" all the way, Won't leave to hunt long for a girl, Yes, as "purity" as "Till," any day.

I'll show you the "Till" type, she sent, (With some one-fingered mittens—hereyes, Bill, are roughish and savvy, and brown She's a flirt, Bill, but O such a prize! When she bid me "good speed" at the gate, I said, "Till, if a Red gets my scalp Will you treasure thought of poor Jim?" Bill, I actually heard her heart "palp"!

Ha! Bill, absence does make hearts grow fond. I've read that, somewhere, I know. Fond of some my "girl" did ye say? (Them dolls, Bill, look dretful like snow.) Well may be your right after all, And true love, he only a name! If any conceals a hot full of dimes I'll whistle and sing just the same.

So give me a check of your plug, I hear the "potted" count at last, And the Johnnies ain't fired a slug (Just a "shot" or half past?) But business now, Bill, who goes there? The "potted" count at last, I'll trade for a hard tack, and "now belly" for two.

Gardner has received and accepted a call to spend a year in the service of the State Board of Evangelization of California. He will leave his household goods, stock etc., on his farm with a view of returning again at the end of the year. —It is not a bad sign for the Wood's machine, but it shows how far some of its opponents will stoop, to tear down the Walter A. Wood sign boards put up by the agents, H. C. Schmidt. Perhaps the party don't know there is a heavy fine for such acts. —Neil Holitzell has sold a half interest in his stock of goods at Rosendale, to Mr. Nathan Mathews of Maitland. Mr. Bruce Kinney will retire from the firm about July 15th. We trust Mr. Kinney will find it to his interest to return to our pleasant little city. —The report that B. W. May, who went to Mexico several months ago, had died, seems to be untrue. His daughter, Mrs. Browning, who resides in the northern portion of the county, informs us that he is still living and strong hopes are entertained of his recovery. —Mrs. L. C. Christian started on Monday last for Republic county, Kansas to visit her sister, Mrs. J. H. McBrine and other relatives there. She was accompanied by her grand daughter, Miss Leah E. Rostock Sr., says he is not fooling when he says that he is now prepared to put your sewing machine in first class order and warrant it; he keeps on hand a full stock of needles for all standard machines, oils, and fixtures. Remember this please, and forget Ludwig's foolish act. —The farmers in the neighborhood of Forbes have been complaining that their wheat crop was going to turn out light. But Frank Sipes, who bound the wheat in a twenty acre field for John Taylor says they "ferried" before they were hurt, as he did not have room in the field to shock the grain, and had to shock three rows on the outside of the field. —A case of road occurred six miles east of Graham on Tuesday night of last week. Grant Wright committed an outrage on Mrs. Charles Humber, his employer's wife. He accomplished his purpose. Wright used a hatchet and knocked Mr. Humber senseless and then made his escape to a neighbor's where he had his wounds dressed. Wright was arrested and is now in the Maryville jail. He will no doubt go over the road. —Our list of candidates for Recorder is increased this week by the announcement of Nicholas Stock. For thirteen years he has been a resident of Holt county; and he has yet his first Republican ticket. He is one of the bravest of brave Republicans—always in the front rank doing battle for his party and its nominees—Always as true as the magnet. There is no truer, better and more enthusiastic Republican in Holt county. He is a man of great energy and thrift; well qualified to fill the position to which he aspires. Should he receive the nomination, he should be elected by not less than four hundred majority, and being elected, will prove a most excellent, competent and worthy officer. —In the cattle trade the past week, it is best expressed in the few words—no trade. Business has been wholly nominal and values conjectural, except the certainty that tops would barely average \$1.75 a \$3.00. Most operators, however, anticipate better prices during this week, but there is little to justify the anticipation. The market closed steady for good shippers at \$3.30 a \$5.00. The hog supply has been nominal and the few extras to be had were speedily gathered up at the strong prices in the early part of the week—tops selling at \$1.50 a \$1.65. The shipping demand continues good. The market closed strong at \$1.20 a \$1.50 for shippers. The wheat market has ranged higher all week, the market closing quiet but firm at 74c; the prices a year ago ranged at 97c. Corn is quiet and firm; orders scarce at 31c.

Fiegenbaum officiating. She will make St. Joseph her future home. —Parties desiring painting, graining, paper hanging, etc., in the latest style of the art, and a first-class job guaranteed on short notice, can be accommodated by giving Mr. G. W. Combs a call. Office at Neal Holitzell's lumber yard, Oregon, Mo. —Miss Laura Johnson of this county, and Professor Dodd, of Warrensburg, were united in marriage at the residence of the bride's parents on Thursday evening last, June 28th. We congratulate the happy couple and wish them a long and happy life. —The Tarkio Avalanche, in commenting on the circuit judgeship says: "Really the judgeship is not a matter properly for the people to decide any way. In the first place it is not a political office and should not be voted upon as such. The circuit judge should be elected by the bar of the district. And why not by the people? Are they not as deeply interested in electing a judge as the bar? What assurance have we that the bar would not run the office into politics—would they not be more likely to mix politics with the office than the people. If the circuit judge should be elected by the bar, why not the supreme court? Why not the teachers of the State elect state superintendent of schools and county school commissioner. No; let there be politics in every office within the gift of the people. —The Fair Society has offered a prize of \$25 for the best drilled legion of Select Knights A. O. U. W., and a prize of \$15 for the second best, to be awarded on Thursday, August 28th. St. Joseph, Quartermaster; V. T. Williams, Stanberry, Inspector; Dr. Wm. Hughes, Hopkins, Surgeon. —The Holt County Mineral Spring, three miles from Mound City, has been fitted up in most comfortable style and all the comforts of a quiet country home are afforded by kindly and hospitable host and hostess, Captain and Mrs. Read. The medical and vivifying effects of the water which gushes profusely and constantly from the bowels of the earth, together with the green shade, the fresh air and the pleasant and quiet surroundings, make this just the place for those who have been exhausted by the various onerous duties of life to come and recuperate their fading energies, renew their strength and rest the tired mind. Mr. and Mrs. Read are peculiarly the right people for the place, their care and attention to guests is perfect, terms reasonable, and all who go once will want to go again. We would like to have reported there several weeks. —Savannah Reporter. —Hamilton News Graphic: "People who go to California expecting to see an earthly paradise will be badly sold," he continued, "to look up a location and expected to send for my family, but I was so badly disappointed that I am going home and settle down perfectly contented to stay in Missouri, for the more I am away from here the more plainly I see our great advantage over other places. California has a wonderful climate, of course, but there is no chance for a man to start in business at all. My advice to all is to stay here if you have a location and can make an honest 'brag.' Good advice, that. Just a little cautious about selling that easy little land and going west to try the experiment of life in the west. Any good honest man, willing to work at reasonable wages, can live and do well here, while out west you may find things very different. Better say where you are if you have a location, for remember a 'rolling stone gathers no moss.'"

**Kind Words.**  
C. B. Casier, editor of the Tarkio Avalanche, was in attendance at the Holt County Sunday school convention, which held its session in this city a few weeks ago, and in his paper of last week has the following kind words to say of our town and people: "Oregon is a pleasant town to live in judging from the immense acreage of shrubbery and fruit trees that is woven like a network all through it; in fact at this time of year it creates the impression of one vast vineyard and flower garden. Fruits and flowers everywhere and upon all sides. The city is composed of a moral and thrifty class of people who fear God and obey the law. They have four churches, and a fine twenty thousand dollar school house in which they are making preparations to put steam heating apparatus to cost \$2,000. While there we met Messrs. Dobys & Curry of the Sentinel, both pleasant gentlemen, and we only regret that we did not have more time to spend with them. We also met Mr. Gray of the Press, Van being absent, who impressed us very favorably. Mr. Gray is assistant superintendent in the M. E. Sunday school. Robt Montgomery and Neil Holitzell, two well-known citizens of that county did much to make the convention a successful day for the visitors present. Also, Rev. T. D. Roberts, who our people will remember as being here last winter during our revival. To Mr. Roberts and his estimable lady we wish to especially return thanks for many kindnesses shown."

**Cross Eye Straightened.**  
The delicate operation for the successful correction of this most unsightly trouble was successfully performed on Friday last for Miss Annie McLaughlin, 1719 South Sixth street by Dr. Butler the oculist of St. Joseph. The doctor was assisted by Dr. R. L. Smith of Craig, Holt county, who happened in and pronounced it a neat and beautiful success. Less than two weeks ago the doctor removed a cataract successfully from the eyes of Miss Weiss, of Washington, and Mr. Stone of Edgerton, both of whom were perfectly blind. Dr. Butler has one of the largest and most successful eye practices in the west.
